# Potential-Yearnings

*Release 0.1*

**Mehdi Amine**

**Dec 03, 2021**

# CONTENTS

<b>1</b>	<b>Contents</b>	<b>3</b>
1.1	Usage . . . . .	3
1.2	API . . . . .	3

**Potential Yearnings** is authored by Mehdi Amine. It's purpose is to make Machine Learning concepts more accessible. It contains *simple* and *intuitive* articles with step by step project implementations.

---

**Note:** This project is under active development.

---

## CONTENTS

### 1.1 Usage

#### 1.1.1 Installation

To use Lumache, first install it using pip:

```
(.venv) $ pip install lumache
```

#### 1.1.2 Creating recipes

To retrieve a list of random ingredients, you can use the `lumache.get_random_ingredients()` function:

The `kind` parameter should be either "meat", "fish", or "veggies". Otherwise, `lumache.get_random_ingredients()` will raise an exception.

For example:

```
>>> import lumache
>>> lumache.get_random_ingredients()
['shells', 'gorgonzola', 'parsley']
```

### 1.2 API

---
